SECTION 4: FIRST AID MEASURES

EYES: Immediately flush with water for 15 minutes. Get medical attention.

SKIN: Wash thoroughly with soap and warm water. Remove contaminated clothing and launder before reuse. Call physician if irritation persists.

INGESTION: DO NOT INDUCE VOMITING. Call a physician or medical treatment facility at once.

INHALATION: Remove victim to fresh air. If breathing is difficult or unconscious, administer oxygen. If not breathing administer artificial respiration. See medical attention if irritation persists.

NOTES TO PHYSICIANS OR FIRST AID PROVIDERS: Do not administer adrenaline or epinephrine to a victim of chlorinated solvent poisoning. This product contains ingredients that may be anticipated to be a carcinogen.

SECTION 5: FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: Dry chemical, foam, or Carbon Dioxide (CO2).

SPECIAL FIRE FIGHTING PROCEDURES: Wear NIOSH approved Self Contained Breathing Apparatus with a full face piece operated in a positive pressure demand mode with full body protective clothing when fighting fires. Use water spray only to cool exposed containers.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Contents under pressure. Exposure to temperatures above 120°F may cause bursting. Combustion by products include phosgene and hydrogen chloride gases.

HAZARDOUS DECOMPOSITION BY-PRODUCTS: Oxides of carbon, chlorine, hydrogen chloride, phosgene.
SECTION 6: ACCIDENTAL RELEASE MEASURES

EMERGENCY PROCEDURES: Remove sources of ignition such as pilot lights. Material is heavier than air and can settle in low lying areas in flammable concentrations, ventilate area. Product will undergo rapid evaporation. Use absorbent on spill sweep to clean. Small releases may be wiped up with wiping material. Dispose of residue in accordance with federal, state and local guidelines. Offer drums for recycling. Do not reuse empty container. Smaller containers should be rinsed and placed in trash collection.

PROTECTIVE EQUIPMENT: Use personal protective devices as stated in Section 8.

METHODS AND MATERIALS FOR CONTAINMENT AND CLEANUP: Same as emergency procedures. Consult with local and state agencies for disposal of filled containers.

SECTION 7: HANDLING AND STORAGE

GENERAL HANDLING/STORAGE: Do not used or store near heat or open flame. Store in cool dry place. Follow all label instructions. Vapors may accumulate in low lying areas.

OTHER PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN!! CAREFULLY READ ENTIRE LABEL BEFORE USE!

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS/VENTILATION: Material is flammable and heavier than air. Material may concentrate in low lying areas. Normal, forced ventilation required to meet TLV requirements. Local exhaust ventilation is generally preferred.

MECHANICAL: Provide sufficient mechanical general and/or local exhaust for ventilation and maintain exposure below TLV’s.

RESPIRATORY PROTECTION: Use only in well ventilated areas. If exposure levels are exceeded then organic vapor cartridge respirator or SCBA will be needed. Wear NIOSH approved Self Contained Breathing Apparatus with a full face piece operated in a positive pressure demand mode with full body protective clothing when fighting fires.

EYE PROTECTION: Safety glasses are always recommended when using chemicals.

SKIN PROTECTION/PROTECTIVE GLOVES: Impervious gloves such as neoprene or solvex can be used.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT: Impervious clothing as needed to prevent skin contact. Eyewash station and safety shower.

WORK HYGIENIC PRACTICES: Wash hands after handling.
